

KUBAN KM10, industrial coffee grinder

It is the best solution for industrial mass production, thanks to its incredibly powerful motor, 200 mm stainless steel discs and dual cooling fans. It also has its own lower chamber made of chrome to store the ground coffee.

MAIN FEATURES

- ✓ Protection against motor overload
- ✓ Special air cooling system
- ✓ Body cooled and powerful 3-phase motor
- ✓ Wheel chrome boiler for ground product
- ✓ Design suitable for easy maintenance and cleaning
- ✓ Mass grinding without heating the product
- ✓ Large loading hopper
- ✓ Occupies little space with its special body design
- ✓ Simple and easy to use

Technical Features

COFFEE GRINDER SPECIFICATIONS

Bean Hopper	15 kg
Blade	200 mm Steel
Body Material	Cast Aluminum
Engine Power	5.5 kW
Voltage	380 V
Frequency	50 – 60 Hz
Dimensions	63*45*160 cm
Weight	230 Kg
Cooling System	Double Sided
Color	All RAL Colors

GRINDING CAPACITY

Turkish Coffee	150 kg/hour
Espresso	200 kg/hour
Filter Coffee	300 kg/hour

Special Steel Burrs for Premium Grinding

Mastering Precision: The Science of Stainless Steel Coffee Grinders

In the area of coffee craftsmanship, the grind is the gateway to flavor nirvana. Behind every perfect cup lies a symphony of engineering, starting with the stainless steel burrs meticulously integrated into our coffee grinders at KUBAN.

Industrial Strength: The 200 mm Burr Set: For large-scale coffee production, where efficiency is paramount, our 200 mm burr set reigns supreme. Built to withstand the rigors of industrial operations, these burrs boast unparalleled durability and grinding power, ensuring a smooth and reliable workflow even under the most demanding conditions.

Features & Options

Mass Production

Mass production becomes very easy thanks to the vertically positioned engine.

No remains, No Flavor do not Mix

It leaves no coffee residue in the mill. Thus, different beans can be ground without flavor mixing.

Sharpest Blades

8-10 tons of coffee can be ground in correct use with high quality blades.

Warranty and Technical Support

2-year warranty and lifetime technical support

Cook As You Want

Coffee beans can be ground to the desired output thickness.

European Standard

CE Certificate is available in all our products.
