Description:

Prepare the best coffee in the different presentations 100% style professional. Design your espresso experience with a single touch with the BTB202 digital super automatic machine. Enjoy espresso drinks from barista quality; Cappuccino, Americano, Latte, Italian Macchiato Oulei coffee and more, designed to deliver the richest, thickest, longest-lasting lather. The automatic cappuccino system includes an integrated milk container with automatic cleaning function that produces steamed milk for Latte and foamed milk for cappuccino and italian macchiato. The container of the milk is removable, allowing it to be placed in the fridge between uses, so no milk is wasted. Take advantage of the coffee machine and let yourself convince by an excellent experience of taste and quality in your business, business or home
