Description:

With this professional drinks dispenser, not only are your drinks beautifully presented to customers, but they can even serve themselves using the handy tap system. This makes it the ideal appliance in any catering establishment that needs to serve guests quickly and efficiently. It is an asset behind any bar or counter. There are a variety of drinks that can benefit from being served in this dispenser, including sodas, water, juice and even smoothies. This model has a total capacity of 36L across two 18-litre polycarbonate tanks, which are all 100% BPA-free.
