Origin: **China**

Description:

A powerful, production blender for mixing all kinds of vegetables, fruit, meat, fish, stuffing into a cream - a homogeneous and smooth mass. Perfect for the production of smoothies, drinks, mashed potatoes, various types of dips, sauces, creams and mayonnaise.

Perfect for small and large gastronomy. A solid and ergonomic design ensures unmatched durability as well as efficient and trouble-free operation. The rotations of T4ALL™ blenders are optimally selected for various types of kitchen and gastronomic work. The mixing heads ensure comfortable work at the very bottom in large and deep vessels. Stainless steel (acid-resistant) used in the individual elements of the blenders ensures clean and hygienic work
